

PROJECT:	TYPE:
LOCATION:	CAT:

Description

The low-profile Universal Mini extrusion can be surface or recess mounted for most applications.

Features

- Extruded aluminum construction
- Can be mounted face down for use as a heat sink
- Use tape light, lens, and end caps to create a complete fixture (tape light and accessories sold separately)
- Not compatible with jacketed tape light when using a lens

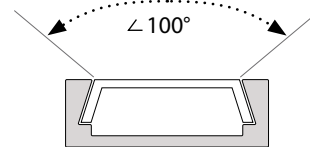

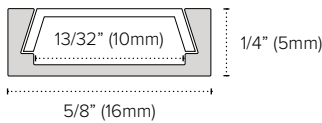

Mounting

Surface or recess mount via mounting clips, construction adhesive, or double-sided adhesive tape; Requires 1/4" height/depth clearance

Applications

Surface or recessed application including under shelves or cabinets
